

VILLA

Mas St Jean

provence - FRANCE

Imagine to wake up and see
the colours that moved Vincent van Gogh to paint his finest work.

And scent the same lavender fields that inspired Paul Cézanne.

You are in the Provence:

the endless inspiration

for artists, writers and musicians.

To be precise, you are in the domain St Jean,
amid the city of the Popes, Avignon, and the town of St Remy de Provence.

The domain originates from the second half of the 19th century.

It is here where you meet the spirit of the Provence

in an ambience that is

as luxurious as it is picturesque.

The completely walled domain measures 6.000 m² and is located just a few miles from the historical centre of the Noves, famous for its 12th century Eglise St. Baudile.

Nearby you can meet the splendour of the Provence: the antiques markets of Isle-sur-Sorgue, St. Remy de Provence, Châteauneuf du Pape (famous for its wines), the ancient Forum and Musée de l'Arles Antique in Arles, les Beaux de Provence and much more.

The domain is surrounded by fruit orchards. A wide variety of Mediterranean plants and trees provide informal areas to relax and enjoy the scenery, surrounded by distinct fragrances of oleanders and lavender. The old olive trees on the terrain produce some of the best olive oil.

Mas St Jean accommodates up to eight guests.

You can visit for leisure or business.

You can stay 'chambre d'hôtes de charme' or rent the entire domain as luxury holiday resort.

The residence leaves an impression you will not soon forget.

The tasteful interior; the spacious kitchen, living room,
and dining all have open fire places.

On the ground floor, the six large interconnected rooms
have immediate access to the terrace and park. On the first floor all four
decorated suites have private bathrooms and are equipped with superior class double beds.

The pool area has a heated swimming pool (6 by 12 meters),
and a fully equipped 'cuisine d'été'.

Its terrace is faced south, partially roofed and during spring and autumn heated by infra-red heaters.

Complementary wireless internet connection is accessible throughout the domain.
